

For colleagues from ethnic minorities aspiring to move into senior leadership

## Get to the next level with our leadership programme

Our Fellowship Programme has been designed to give you the missing leadership skills you need to step up in your career.

The **High Potential 2 development programme** is the second of three leadership programmes supporting different career stages.

Aimed at those who are looking to move into a system senior leader role that requires accredited qualification with leadership experience. Minimum of three years' leadership or senior experience.

The Programme is a collaboration with the public, health and social care sectors to develop our system leaders of the future with a commitment from our senior leaders to create opportunities.

The programme is designed to equip colleagues with system working opportunities, develop leadership skills which is supported by a Level 7 award in leadership and management and put these skills in to practice and provide you with knowledge and tools to be a successful leader.
