

Telling our Partnership story

Proud to be the West Yorkshire and Harrogate Health and Care Partnership

Committed to improving the health and wellbeing of people living in:

- > Working to improve people's health with and for them
- > Improving people's experience of healthcare
- > Making every penny in the pound count
- > Working to keep people well and make life better for 2.6 million people living in West Yorkshire and Harrogate.

Yorkshire and Humber Digital Care Record launched to improve people's care

Our ambition

We want to provide health and care staff with better and faster access to vital information about the person receiving support so that we avoid duplication and improve the information we give to people.

West Yorkshire and Harrogate Health and Care Partnership

Yorkshire and Humber Care Record

What we are doing

The Yorkshire and Humber Digital Care Record aims to address these issues by using technology to link systems across health and care organisations, helping care providers to work more closely together.

It will also provide people with access to their information and encourage them to be more involved in looking after their health.

What next?

Each new partnership will receive up to £7.5 million over two years to put in place an electronic shared local health and care record that makes the relevant information about people instantly available to everyone involved in their care and support.
